

DREAMS

Dear Parents/Guardians:

DREAMS (Desire, Readiness, Empowerment, Action & Mastery for Success) is designed to lead teenagers toward academic success, professional flourishing and ultimately success in life. The program has been successfully implemented in Ouachita School System in Monroe, LA since 2012. Starting with five day summer camp, participants, with the help of supportive community of peers, senior mentors, and trainers, will identify their talents/skills and develop their potential to the fullest to achieve a value-guided personality for sustainable success in academics and in life.

This program provides teens an opportunity to make new friends, build meaningful relationships and participate in life-changing events. Leave feeling rejuvenated with a new sense of purpose in life. The intra-personal aspects such as **self-concept, self-worth, attitudes, emotions, personal goals, values and skills** and the powerful success principles are broken down into simple “how-to-apply” steps, through mentoring, games, activities, music, and so on.

For more information visit our website www.letusdream.org/dreams
